

# 13<sup>th</sup> INTERNATIONAL Applied LAPAROSCOPIC Urology Course

March 29-31, 2011

**ANIMAL RESEARCH CENTER  
ATHENS / GREECE**

## Organisation Committee

**Dr. Yasar Ozgok**  
Course President

**Dr. Lutfi Tunc**  
Course Secretary

**Dr. Ali Serdar Gozen**  
Course Secretary

**Dr. Erdem Canda**  
Course Secretary

**Dr. Selcuk Guven**  
Course Secretary

## Scientific Committee

Altinel M  
Andreou A  
Apaydin E  
Arslan M  
Arslan Y  
Ates M  
Atug F  
Balbay D  
Basok E  
Bedir S  
Binbay M  
Boylu U  
Bozkirli I  
Canda E  
Caskurlu T  
Gozen AS  
Gurbuz C  
Guven S  
Huri E  
Istanbuluoglu O  
Kalogeropoulos T

Karagiannis A  
Vuruskan H  
Kocak I  
Kocak B  
Kordan Y  
Kural AR  
Oktay B  
Ozgok Y  
Sanli O  
Saracoglu F  
Seckiner I  
Skolarikos A  
Soyupek S  
Tufek I  
Tunc L  
Tuncel A  
Turna B  
Ugurlu O  
Yalcinkaya F  
Yavascaoglu I

## Course Content

### I. Theoretical lectures and video presentations

#### Laparoscopic urologic procedures

Trocar placement per surgical approach  
Transperitoneal and retroperitoneal approaches  
Laparoscopic renal cyst excision  
Laparoscopic simple nephrectomy  
Laparoscopic radical nephrectomy  
Laparoscopic nephroureterectomy  
Laparoscopic pyeloplasty  
Laparoscopic partial nephrectomy  
Laparoscopic adrenalectomy  
Laparoscopic radical cystoprostatectomy  
Laparoscopic radical cystectomy

#### Robotic urologic procedures

Preparation of the robotic system and docking  
Robot assisted laparoscopic nerve-sparing radical prostatectomy and bilateral extended pelvic lymph node dissection  
Robot assisted laparoscopic nerve-sparing radical cystoprostatectomy for bladder cancer  
Robot assisted laparoscopic bilateral extended lymph node dissection for bladder cancer  
Robot assisted laparoscopic intracorporeal Studer pouch construction following cystectomy for bladder cancer

## Course Content

### II. Training-box practicing

- Beans in a cup
- Align matchstick on the matchbox
- Laparoscopic cut a piece of chicken skin
- Cutting, Suturing and intracorporeal knotting

### III. Laparoscopic hands-on training on pigs

- Trocar insertion
- Description of intra-abdominal anatomy and structures
- Ureteric dissection
- Ureterotomy
- Uretero-ureterostomy
- Pyeloplasty
- Renal pedicle dissection
- Nephrectomy
- Partial nephrectomy

## Course Programme

March 30<sup>th</sup>, 2011

### Morning

- 08.30-10.00 Group A, B, C, D**  
 Anaesthesiology in Urologic  
 Laparoscopy  
 Urologic Laparoscopic Equipment  
 Video Trocar position per  
 operation
- 10.00-10.15 Coffee Break**
- 10.15-13.00** Laparoscopic training on pigs  
 Group A+Group B ( 8 persons each)  
 Lectures and video presentations  
 Group C: 8 persons  
 Training boxes  
 Group D: 8 persons
- 13.00-14.00 Lunch Break**

### Afternoon

- 14.00-17.00** Laparoscopic training on pigs  
 Group C+ Group D  
 Lectures and video presentations  
 Group A  
 Training boxes  
 Group B

## Course Programme

March 31<sup>st</sup>, 2011

### Morning

08.30-10.15 Theoretical Session

10.15-10.30 Coffee Break

10.30-13.30 Laparoscopic training on pigs  
Group A+Group B

Lectures and video presentations  
Group D

Training boxes  
Group C
