

CURRICULUM VITAE

NAME Birgitta Keil
NATIONALITY German
E-MAIL birgitta.keil@slk-kliniken.de

CAREER OBJEKTIVE

I am interested in urological diseases, urologie surgery and nursing care as well. I am very curious about urological nursing and my occupation covers working in this special topic. I especially enjoy following surgical innovations and the latest developments in the urology. It is an honor for me to join in the European Association of Urology Nurses. I want to be informed about the latest developments in the field of urological nursing and I want to be an active part of this dynamic organisation. I hope you will accept my application for the EAUN-board and give me the chance to join the board. I visited the EAUN in Stockholm in April 2014 and I was really amazed about the highly professional organization of the whole meeting. So I decided to apply for being an active part of this organization.
