

Dear Colleagues,

Dear Friends,

It is a great pleasure for us to introduce the second issue of the Robotics, Laparoscopy & Endosurgery e-journal.

There has been much advancement within the field of laparoscopic and robotic urology this past year. We are aiming to present all this technical advances especially as visual teaching material.

This issue is including very interesting and current articles and videos from laparoscopic, robotic as well as and microsurgical field. Innovative and standard approaches from different specialties like urology, general surgery, gynecology and ENT are presented together.

In addition, this e-journal also contains an interesting meeting report from RAMSES – The Robotic Assisted Microsurgical & Endoscopic Society 2015 Meeting including the current developments in the field of robotics.

This issue of our e- journal is in overall a very informative resource for healthcare professionals dealing with robotics and endosurgery with the latest clinical news.

I would also invite you to visit of our website (www.robotictimes.org) to view other very interesting and useful videos from the previous issues and join our platform.

My best regards

Dr. Ali Serdar Gozen

Associate Professor of Urology

Associate Editor, Robotics, Laparoscopy & Endosurgery

Heilbronn, Germany
