

Dear Colleagues,

It is a great pleasure for me to introduce the second issue of our e-journal "Robotics, Laparoscopy & Endosurgery" to you.

In the present issue, we have five point-of-technique video-articles with surgical videos related with Robotic Urology, Robotic E.N.T., Laparoscopic Urology and General Surgery. In this issue, we have a wide range of papers including Urology, General Surgery, Gynecology, Uro pathology, Anesthesiology and Nursing in addition to two meeting reports and a fellowship experience presentation. The journal constitutes an international platform as articles have been submitted from USA, Canada, Switzerland, Germany and Turkey.

I think that "Surgeons with hobbies" section about "Photography" prepared by Professor Bavbek, a neurosurgeon from Turkey will attract your attention a great deal.

I would like to take this opportunity to invite you all to submit your articles and videos to Robotics, Laparoscopy & Endosurgery and visit its website www.robotictimes.org. I hope this journal gives the opportunity of sharing experience and knowledge with published articles & videos in an international settings.

With kind regards,

Dr. A. Erdem Canda

Associate Professor of Urology
Editor, Robotics, Laparoscopy & Endosurgery
*Ankara, Turkey,
January 2016*
