

Dear Colleagues,

It is a great pleasure for me to introduce you the new e-journal "Robotics, Laparoscopy & Endosurgery".

This journal is a peer-reviewed, open access and an international e-journal with an international editorial board that covers the subjects of robotic surgery, laparoscopic surgery and endosurgery. Although the majority of the articles included in the journal are related with urology, papers in the fields of general surgery, gynecology, E.N.T. and other surgical areas are also accepted. In addition, invited articles related with surgical pathology, radiology and imaging are included.

Type of articles includes research articles, case reports and case series, how I do it papers, mini-reviews, article summaries with take home message and meeting reports. In addition, video submission and accompanying point of technique video-articles are also welcomed. Edited videos could be up to 30 minutes of duration and authors have the chance of explaining the details of the presented video in the accompanying point of technique video-articles.

In the first issue, three video-articles related with robotic urology, robotic E.N.T and pure NOTES laparoscopic surgery are included. In addition, we have articles including case report, meeting report, article summary, visiting faculty experience and a special paper related with in memoriam of Professor Rolf Ackermann.

I would like to take this opportunity to invite you all to submit your articles and videos to Robotics, Laparoscopy & Endosurgery and visit its website www.robotictimes.org. I hope this journal gives you all the opportunity of sharing experience and knowledge with published articles & videos in an international worldwide settings.

With kind regards,

Dr. A. Erdem Canda

Associate Professor of Urology
Editor, Robotics, Laparoscopy & Endosurgery
*Ankara, Turkey,
