

Dear Colleagues,

It is a great pleasure for us to introduce the May 2017 issue of our e-journal to you.

In the present issue, we have four point-of-technique video-articles with accompanying surgical videos related with endourology, Robotic Urology, and Laparoscopic Urology. We also have three interesting meeting reports and a mini review.

We would like to take this opportunity to invite you all to submit your articles and videos to Robotics, Laparoscopy & Endosurgery and visit its website www.robotictimes.org

We hope this journal and platform gives the opportunity of sharing experience and knowledge with published articles & videos in an international setting.

We are also waiting for article submission for September 2017 issue.

With kind regards,
